

# Rotary Club of Centennial Colorado

Centennial, Colorado June 7, 2016

Rich Schmidt, today's speaker, President and CEO of Tipping Point Solutions spoke about his company. Tipping Point Solutions is an award-winning multimedia eLearning company, specializing in designing and developing engaging interactive training solutions. Our training products are designed to support multiple modes of delivery for seasoned instructors in the classroom, novice facilitators who desire to educate his/her workforce, or individual self-paced instruction. (This description was taken from their web site, [www.tp-solutions.com](http://www.tp-solutions.com).) He demonstrated his company by showing the development of a brain concussion training course that was developed for the US Army. It is well worth going to their web site to get additional information on the concussion training course and other courses they have developed.

Some pictures of the setup for our beer sales at the Centennial Under the Stars event on June 4. Beer sales were not as good as in the past, possibly due to the type of entertainment.

Sandra Abeyta presented the invocation.  
Cheryl Sartain led us in the Pledge of Allegiance.  
John Berry has some Rotary trivia for the Rotary Minute. The first non-English speaking club was in Cuba in 15/16. The club in Winnipeg made Rotary an international organization. Women were let into Rotary in 1987.  
The was no blue marble winner.

See the next page for upcoming events.

# 2015-2016 Club
